We surveyed nurseries on the Department of Natural Resources' list of native plant suppliers. The nurseries below:

- 1) Have staff that are knowledgeable about native plants and can help you differentiate a cultivar from a native.
- 2) On request, can assemble a special order for L2L plant list templates for [sun](#) and [shade](#) gardens (not to exceed \$300).

Note: This list is not exhaustive and only represents those who responded to the survey conducted in August 2022.

	Location	Contact info	Online ordering available?	Do their receipts itemize native plant species purchases?	Do they offer their own native plant garden kits/templates for sun and shade gardens?
Drummers Garden Center and Floral	281 St Andrews Dr #8584, Mankato, MN 56001	507-388-4877 info@drummersgardencenter.com drummersgardencenter.com	no	Have many native perennial plants that come in small 3"-4" pots that they are trying to label, but many of their small perennials are a generic tag.	no
Minnesota Native Landscapes (MNL)	does not have storefront location	Mnlcorp.com/shop	Yes (delivers statewide)	Individual species and build-a-kit offer species information; plant kit information can be found on each shop page. All MNL-grown plants are native to the upper Midwest.	yes
