## **Special Order Guidelines for 2023**

**Due to existing labor and supply conditions, special orders for plants not on our regular catalogue list will be subject to the following:**

- **Minimum Orders for each special-order variety is 10 full flats of each variety**
- **You must supply all seed for special varieties as follows:**

**1000 seeds per ten finished 48-count flats**

**500 seeds per ten finished 18-count flats**

- **All special orders and the seeds must be to us by January 20, 2023**

**We search for the best varieties of every plant we grow and feel we provide an extremely large selection of all our flowers, vegetables, herbs, perennials, and native perennials.**

**We will be growing all our perennials and herbs in 18-count trays. Most of our customers prefer this size for its larger water-holding capacity, ease of maintenance, and larger root system as compared to the 32-count.**

## NEW FOR 2023

### SHADY LADY PERENNIALS

Bergenia codifolia	Red Beauty
Bergenia purpurascens	
Geum x borisii	Queen of Orange
Lobelia cardinalis	Alba
Viola labradorica	Freckles

### SUNNY GENT PERENNIALS

Achillea sibirica subsp. Camtschatica	
	Love Parade
Bellis perennis	Tasso Red
Scaiosa caucasica	Fama Deep Blue
Zinnia grandiflora	

### ANNUAL PAKS

Calliopsis	Finest Mix
Hypoestes	Confetti White
Impatiens	Beacon Rose
Marigold	Bonanza Flame
Marigold	Marvel II Mix
Nierembergia	Purple Robe
Petunia	Merlin Morn Pink
Petunia	Merlin Morn Red
Petunia	Tritunia Plum
Portulaca	Sundial Peppermint
Salpiglossis Bicolor	Royale Purple

### ANNUAL PAKS (CONTINUED)

Vinca	Pacifica Mix
Vinca	Pacifica Polka Dot
Viola Mix	Sorbet Y-T-T Blues

### 18 COUNT ANNUALS

Gazania	Kiss Orange Flame
Osteospermum	White Star
Pentas	Butterfly Glitterati Purple Star

E-mail: [glacridgegrowers@aol.com](mailto:glacridgegrowers@aol.com)

Website: [www.glacialridgegrowers.com](http://www.glacialridgegrowers.com)

We have been in the greenhouse business for over fifty years. It has always been our goal to bring quality, sustainably-grown plants at an affordable price to the retailer. We offer a wide variety of natives (flowers, grasses, sedges, and shrubs), perennials, annuals, herbs, vegetables, hanging baskets, fall mums, and a special selection of certified organic vegetable and herb plants. All perennials and herbs will be grown in 18-count. We do custom grown 72-count organic vegetable and herb transplants for your fields. SEE NEW ITEMS ON PAGE 2. Delivery is available or you can arrange to pick up your orders at the greenhouse.

Our "state of the art" greenhouse range allows us to remain on the cutting edge of production techniques. We have built a new soil-handling room so now we can use all bulk soil modules eliminating plastic bagged soils. We have also added additional greenhouse space to better serve our valued customers.

Jeremiah continues to administer integrated pest management in our greenhouses by using scheduled releases of predatory insects for control of pests. Correct timing, succession plantings, and precise regulation of growing temperatures and moisture keep our crop healthy and pest-free without the use of harsh chemicals. We use NO chemical insecticides, NO herbicides, NO growth retardants, and NO genetically modified seeds.

We are also very fortunate to have a reliable and diligent full-time staff to help with the production and shipping of our plants.

Gene Stark   Muriel Stark   Jeremiah Stark   Barbara Gerdes   Cory Walsh   Mamie Webber

## **“NO NICS” – STATE APPROVED BEE AND BUTTERFLY FRIENDLY**

We are committed to production methods friendly to bees and butterflies. We use NO neonicotinoids in our greenhouse operation. We have also painstakingly researched our suppliers to get their assurance that they use no “neonics”. In addition, we offer the most extensive selection of pollinator plants available.

## **HOME OF GLACIAL RIDGE NATIVES**

Here in west central Minnesota, among lakes and prairie marshland carved into the rolling countryside, we continue to grow and propagate plants that have resided here since before written history.

Ice and snow shaped and tilled the land preparing it for a diverse and stunning covering of grasses and flowers. The area became an ever-changing landscape, with four seasons of color and shimmering texture. The scale and grandeur of the wild prairie land inspired awe and wonder among the first explorers.

At Glacial Ridge we nurture the natives, producing the same handsome and hardy plants that have inhabited the prairies for centuries. We strive to bring back and restore the genetics of the past to insure the beauty and diversity of the future. Now everyone can experience a bit of what the early explorers to the Great Plains experienced. We are “RESTORING THE NATIVE PRAIRIE ONE BACKYARD AT A TIME.”

## **HOME OF GLACIAL RIDGE MINNESOTA HARDY PERENNIALS**

We are also happy to offer you a wide variety of Minnesota Hardy Perennials. We have shady, sunny, and climbing perennials. These are offered in 18 count.

You can profit two ways with these Glacial Ridge Hardies:

- 1) Immediate sales of the 18 count perennials – Each pot is labeled for individual sales. Double your money by putting these plants directly into the sales area. We have a great selection of reasonably priced perennials for your customers. Run “full flat specials” for those who wish to start or fill a perennial bed.
- 2) Move in to one-gallon pots. In about four weeks you can have a saleable perennial from an 18-count plant. Again, each plant is tagged. All you need are one-gallon pots and soil. Any plants remaining from your 18 count pots can be moved into one-gallon containers for summer or fall sales. Many of these perennials bloom the first season.

### **HOME OF PATIO PLANTS**

These varieties have been selected for compact stature and high yields in small spaces. The plants marked "Patio" will perform well in containers and add beauty, flavor, and productivity to any patio or deck. Be sure to bring these items on board!

### **HOME OF GLACIAL RIDGE ANNUALS, HANGING BASKETS, HERBS, AND VEGETABLES**

At Glacial Ridge we grow a wide and unique variety of annuals, hanging baskets, herbs, and vegetable plants. These plants are all individually tagged and ready to sell. Our herbs are grown as 18 count. Vegetables and annuals are grown both in 18-count trays and in paks.

### **HOME OF GLACIAL RIDGE ORGANICS**

We continually strive to improve our offerings to you. We are proud to continue to add to our line of organic HERBS and vegetables. These are USDA certified and come with an informative colored label. All these plants begin with either certified organic or approved untreated seeds. They are grown with our certified organic feed and pest management system in a separate organic greenhouse. Please contact us early if you have an interest in carrying our organic line.

### **HOME OF GLACIAL RIDGE ORGANIC VEGETABLE TRANSPLANTS**

We continue to offer our certified organic vegetable transplants in 72 count trays for the organic vegetable grower. We can supply the seed or you can supply your own seed. Seed quality is very important. If you supply your own seed you will need to supply 100 seeds per tray. We cannot achieve a higher percentage yield than the germination rate of your seed.

### **GLACIAL RIDGE GROWERS, INC.**

Over fifty years of greenhouse production has enabled us to refine our list to varieties that consistently sell well. Our plants are a tribute to a natural, harmonious life-style and thrive in our climate.

---

### **EARLY ORDER DISCOUNT**

All orders placed by January 20, 2023 will be booked with a 2% discount. All varieties are subject to availability. We will allocate plants on a first come – first serve basis.

**PLEASE BOOK ALL PLANT ORDERS AS EARLY AS POSSIBLE TO ENSURE PLANT AVAILABILITY.**

We look forward to helping supply your needs for the 2023 season.

All prices are subject to change.

## **DELIVERY**

We can deliver your order or you may pick it up at our greenhouses. (Please call ahead for all pick-ups so that your order will be ready and waiting for you.) If you need a delivery please contact us for delivery costs and arrangements. During the peak season we do regular deliveries to the Twin Cities and surrounding areas. (In order to keep delivery costs reasonable for all customers we try to pool our deliveries with customers in the same general vicinity.)

## **DISPLAY RACKS**

We offer metal rolling racks for display and sales of your natives. Each rack holds twenty-five flats of plants.

The racks rent for \$45/each for the entire selling season. Racks must be ordered by January 20<sup>th</sup> to ensure availability. Racks may be ordered for use after Mother's Day weekend for \$35/each for the rest of the selling season.

## **FUNDRAISERS**

We work with many groups that organize plant fundraisers. Please call us with questions that you might have about these fundraising opportunities.

Order early so we can assure that you get the varieties that you want. (We need a firm order for your group so that we can save those plants for YOU!) Before you put together an order form for your customers make sure of the availability of the plants that you would like to offer. Also decide upon a delivery date now. Talk to us soon so that we can get that delivery date on our calendar.

If you are new to plant fundraisers, give us a call and we will discuss how you can be successful with a fun and profitable event.

## **FALL MUM FUNDRAISER**

Collect orders with your spring fundraiser order. We would like mum orders in by May. Mums will be delivered near the beginning of the school year in the fall. Big, beautiful mums for garden, deck, or pots.

## **WHOLESALE ORDERS**

Wholesale orders must include an 8-flat minimum. Less than 8 flats per order will be subject to an upcharge. Orders that are delivered before June 1<sup>st</sup> must be full flats of one variety per flat. Orders that are delivered after June 1<sup>st</sup> may be mixed variety flats (depending upon availability).

## NATIVE PERENNIALS

(ORDERS READY FOR DELIVERY OR PICK-UP BEGINNING AT THE END OF APRIL)

Flats of 18 Count – 18 pots/flat - \$34.25/flat; Flats of 18 Count Ferns – 18 pots/flat - \$49.95

Jumbo Pots/each - \$6.50 (Each pot contains a picture tag); Jumbo Fern Pots - \$7.50/each

(The plants marked with a (BEE) sign are especially good for Rusty Patched Bumble Bees)

Volume of Each Selling Unit (18/flat) – 12.17 fl. oz or 365 ml

Volume of Each Jumbo Pot (1 each) - 102 cu in (1.67 L)

### CODE:

### SOIL -

W – WET

N – NORMAL

D – DRY

### SUN -

P – PRAIRIE – FULL SUN

S – SAVANNAH – PARTIALLY SHADED

W – WOODLAND – HEAVILY SHADED

**SHADE – NATIVE PERENNIALS - \$34.25/flat**

**(ORDERS READY FOR PICK-UP OR DELIVERY BEGINNING AT THE END OF APRIL)**

These hardy native perennials are either woodland or partly-shaded savannah plants; however, some will tolerate fairly sunny locations.

<b>ORGANIC VEGETABLE TRANSPLANTS – 72 Count Plugs</b>		
***Certified Organic Vegetable Plugs for Vegetable Growers; 72 Count Tray - \$30.00 (includes seed). We try to obtain seed with at least a 90% germination rate. (In some cases, due to seed sources this may not be possible)		
***Varieties are listed in organic 18 count section of the catalogue. There will be a \$5.00 up-charge for Red Knight Pepper, Bell Boy Pepper, Golden Bell Pepper, Cantaloupe, & Yellow Doll Watermelon due to seed costs.		
***Seed quality is very important if you supply your own seed.		
***These are direct seeded plugs. Germination; and therefore, the number of plants per tray depend upon the germ rate of your seed.

## POLLINATOR PLANTS MARKET PAKS

Minnesota State Horticultural Society  
A nonprofit organization  
Growing Gardeners for 156 Years

MSHS wants gardeners to have easy options for planting pollinator gardens. Glacial Ridge Growers in Glenwood, MN is supporting this effort by growing pollinator plant variety market packs. Help MSHS by selling them to your customers – a \$3 donation per flat ordered is given to MSHS from Glacial Ridge.

These specially selected paks are designed to help your gardeners create habitat in their gardens for pollinators. There are **4 market pak collections: one for bees, one for butterflies, one for Hummingbirds, and one for Monarchs.**

These handy market paks with colorful handles are an easy sell for today's gardeners who are concerned about the challenges our pollinators are facing. **Each 6 pak has 6 different perennial plants** (most are natives) designed to attract a specific pollinator. Plus, they provide interesting color and texture to our sunny gardens.

**Each flat holds 3 market paks of the same pollinator mixture.** The plant mixtures have been carefully selected so that all six plants in a market pak have similar watering needs at your garden center. All of these market paks should be placed in a full sun location in your sales area.

- **For Bees:** Agastache foeniculum-Anise Hyssop; Baptisia australis-Blue Wild Indigo; Pycnanthemum virginianum; Geum triflorum-Prairie Smoke; Dalea purpurea – Purple Prairie Clover; and Ruellia humilis-Wild Petunia
- **For Butterflies:** Echinacea pallida-Pale Purple Coneflower; Liatris ligulistylis-Meadow Blazing Star; Liatris pycnostachya-Prairie Blazing Star; Lupinus perennis-Wild Lupine; Rudbeckia fulgida-Orange Coneflower; and Aster laevis – Smooth Blue Aster
- **For Hummingbirds:** Vernonia fasciculata; Aquilegia canadensis; Heuchera Firefly; Lobelia cardinalis; Lobelia siphilitica; Monarda didyma-Panorama Red
- **For Monarchs:** Asclepias incarnata-Swamp Milkweed; Asclepias speciosa-Showy Milkweed; Asclepias sullivantii-Sullivant's Milkweed; Asclepias syriaca-Common Milkweed; Asclepias tuberosa-Butterfly Weed; Asclepias verticillata-Whorled Milkweed

Additional perk: MSHS will advertise that your business or group is selling the pollinator 6 paks.

**Order directly from the grower: Glacial Ridge Growers in Glenwood, Minnesota.**

Glacial Ridge Growers uses plant production methods that are friendly to bees, hummingbirds, butterflies, and monarchs with NO Neonicotinoids and is known for growing quality natives, annuals, perennials, heirloom tomatoes, vegetables, strawberries, herbs and more. Be sure to check out their catalog—you may want to add other plants to your order when ordering the Pollinator Plants Market Paks.
